

Starts Saturday, February 19 the long appointment (nine-day event) for all boating enthusiasts and for those working in a sector, the shipbuilding, which has a strong presence on the coast of Lazio.

"The Show Boat and the Sea of Rome - said the councilor for productive activities, David Borden, explaining the event - has become an event of attraction in the exhibition industry and the administration intends to continue to support Fair in Rome 'organize an event so representative. Our capital, for too long, he almost suffered the presence of the sea to be recovered while the relationship with the culture and the Navy shipbuilding tradition that Lazio are key elements of its identity. Through the network of Centres Professional Training, Roma Capitale is pointing firmly on the training and development, giving young people the opportunity to learn the trades related to the sea and to interact with businesses in the area. Soon, moreover, the assembly will discuss the Capitoline 'expand the port of Ostia, which represents a further step forward for the economic development of our coast."

An exhibition divided by thematic areas: Boat Show Roma, the Hall of yachting, with over 400 boats on display and presented the news in recent months by the best-known brands - Sessa, Cranchi, Itama, Fiart, Hatteras, Cabo, Atlantis, Yamaha, Suzuki, Pirelli and Azimut -; services for boating, marinas, yacht clubs and sailing schools, charter services for yachts and motor GOMMOSHOW, the Hall of dinghies, dedicated to boats, outboard motors within the package and to trucks; World Fishing, everything on sport fishing, and finally, new edition 2011, Outdoors Experience, the area that looks at the life and outdoor tourism.

Also new, the focus on water sports, from sailing with all his Olympic classes, the canoes, to windsurfing, kitesurfing to the most recent and Sup, the super-board technology that is used with a carbon paddle.

Space for food and drink, nautical clothing, equipment for outdoor tourism, underwater photography, the latest technological equipment.

Even children are at the show and activities proposed to measure the evidence in drifts on

the water sports, a training course on marine protection, at a theme for kindergarten children.
